

Ux+Design/2023

## 2nd International Conference on Urban Experience + Design

Tufts University, April 28, 2023

Following up on ideas presented at the Ux+Design/2019 conference, Ux+Design/2023 will have speakers from across the globe who explore the implications of 'embodied cognition', cognitive architecture, biology, and evolution, as well as new research methods and techniques for using biometrics in urban planning, architecture, and landscape architecture, to build better places for us all.

Register here: [sites.tufts.edu/uxdesign](https://sites.tufts.edu/uxdesign)

We look forward to seeing you!
